market today. You can research, and you won't find a product that even close to what the IP Office has to offer. Built into the box, every IP Office system has, included: Unified Messaging (voice mails in your Outlook inbox), TAPI (integration and dial out from Outlook), Silent call recording on either an ad-hoc basis, or for all calls to certain / all extensions, Full call center with an unlimited number of queues, full duplex [speaker phones](#), mobile cell phone twinning, 64 party conference bridge (dial in), along with an instant replay of those conference calls, and an application called Phone Manager Lite (which provides a desk top appearance of your phone set on your computer screen). You can manage your phone entirely from the PC.

[Take a look at the Avaya IP Office Video](#)

Avaya IP Office is an all-in-one solution specially designed to meet the communications challenges facing small and medium sized businesses. The Avaya IP Office solution can scale from 2 to 360 extensions to meet the needs of home offices, standalone businesses, and networked branch and head offices. Built on Avaya's latest advancements in converged voice and data technology, small to mid-sized businesses can benefit from many of the advantages sophisticated communications deliver to their operations. Avaya IP Office supports a wide range of telephones but the Avaya IP Office [5400](#) series Digital phones and the Avaya IP Office 5600 series IP phones have been specifically designed to work with IP Office and provide small and medium sized businesses with a choice of solutions to meet business efficiency and customer service requirements.

[What's New With This Release of Avaya IP Office](#)

Avaya IP Office 3.2 is even more attractive to independently-owned businesses (single-location and multi-location) as well as branch offices of much larger companies. The software contains new features and support for new devices that will add significantly to the value that IP Office provides to both BusinessPartners and customers. This includes an advanced Voice Mail system (on Avaya IP Office) called [Voice Mail Pro](#).
