Avaya One-X Quick Edition: Simple Plug and Play Technology

AVAYA

Avaya one-X™ Quick Edition heralds a new paradigm in telephony for small office environments. In minutes users can set up and install a **telephony system**. Each Quick Edition phone comes with embedded SIP-based peer-to-peer software. Simply connect the phones to a LAN and they automatically detect each other. Once the users input their names the voicemail, directory, and auto attendant features are populated and ready to use. It's that simple. Further customization options are available through a secure web based management system.
